Section V – Eligibility Criteria

Eligibility in AFD-Financed Procurement

1. Financing allocated by AFD to a Contracting Authority has been entirely untied since 1st January 2002. To the exception of any equipment or any sector which is subject to an embargo by the United Nations, the European Union or France, all goods, works, plants, consulting services and non-consulting services are eligible for AFD financing regardless of the country of origin of the supplier, contractor, subcontractor, consultant or subconsultant inputs or resources used in the implementation processes. The Contracting Authority means the Purchaser, the Employer, the Client, as the case may be, for the procurement of goods, works, plants, consulting services or non-consulting services.
2. Natural or legal Persons¹ (including all members of a joint venture or any of their suppliers, contractors, subcontractors, consultants or subconsultants) shall not be awarded an AFD-financed contract if, on the date of submission of an application, a bid or a proposal, or on the date of award of a contract, they:
 - 2.1 Are bankrupt or being wound up or ceasing their activities, are having their activities administered by the courts, have entered into receivership, or are in any analogous situation arising from a similar procedure;
 - 2.2 Have been:
 - a) convicted, within the past five years by a court decision, which has the force of res judicata in the country where the contract is implemented, of fraud, corruption or of any other offense committed during a procurement process or performance of a contract, unless they provide supporting information together with their Statement of Integrity (Form available as Appendix to the Application, Bid or Proposal Submission Form) which shows that this conviction is not relevant in the context of the Contract;
 - b) subject to an administrative sanction within the past five years by the European Union or by the competent authorities of the country where they are constituted, for fraud, corruption or for any other offense committed during a procurement process or performance of a contract, unless they provide supporting information together with their Statement of Integrity (Form available as Appendix to the Application, Bid or Proposal Submission Form) which shows that this sanction is not relevant in the context of the Contract;
 - c) convicted, within the past five years by a court decision, which has the force of res judicata, of fraud, corruption or of any other offense committed during the procurement process or performance of an AFD-financed contract;
 - 2.3 Are listed for financial sanctions by the United Nations, the European Union and/or France for the purposes of fight-against-terrorist financing or threat to international peace and security;
 - 2.4 Have been subject within the past five years to a contract termination fully settled against them for significant or persistent failure to comply with their contractual obligations during contract performance, unless this termination was challenged and dispute resolution is still pending or has not confirmed a full settlement against them;
 - 2.5 Have not fulfilled their fiscal obligations regarding payments of taxes in accordance with the legal provisions of either the country where they are constituted or the Contracting Authority's country;
 - 2.6 Are subject to an exclusion decision of the World Bank and are listed on the website <http://www.worldbank.org/debarr>, unless they provide supporting information together with

¹ Means any Person whether natural or legal, firm, company, corporation, government, state or state agency or any association, or group of two or more of the foregoing (whether or not having separate legal status).

their Statement of Integrity (Form available as Appendix to the Application, Bid or Proposal Submission Form) which shows that this exclusion is not relevant in the context of the Contract;

- 2.7 Have created false documents or committed misrepresentation in documentation requested by the Contracting Authority as part of the procurement process of the Contract.
3. State-owned entities may compete only if they can establish that they (i) are legally and financially autonomous, and (ii) operate under commercial law. To be eligible, a state-owned entity shall establish to AFD's satisfaction, through all relevant documents, including its Charter and other information AFD may request, that it: (i) is a legal entity separate from their state (ii) does not currently receive substantial subsidies or budget support; (iii) operates like any commercial enterprise, and, inter alia, is not obliged to pass on its surplus to their state, can acquire rights and liabilities, borrow funds and be liable for repayment of its debts, and can be declared bankrupt.

Section VI – AFD Policy - Corrupt and Fraudulent Practices – Environmental and Social Responsibility

1. Corrupt and Fraudulent Practices

The Contracting Authority and the suppliers, contractors, subcontractors, consultants or subconsultants must observe the highest standard of ethics during the procurement process and performance of the contract. The Contracting Authority means the Purchaser, the Employer, the Client, as the case may be, for the procurement of goods, works, plants, consulting services or non-consulting services.

By signing the Statement of Integrity the suppliers, contractors, subcontractors, consultants or subconsultants declare that (i) “it did not engage in any practice likely to influence the contract award process to the Contracting Authority’s detriment, and that it did not and will not get involved in any anti-competitive practice”, and that (ii) “the procurement process and the performance of the contract did not and shall not give rise to any act of corruption or fraud”.

Moreover, AFD requires including in the Procurement Documents and AFD-financed contracts a provision requiring that suppliers, contractors, subcontractors, consultants or subconsultants will permit AFD to inspect their accounts and records relating to the procurement process and performance of the AFD-financed contract, and to have them audited by auditors appointed by AFD.

AFD reserves the right to take any action it deems appropriate to check that these ethics rules are observed and reserves, in particular, the rights to:

- a) Reject a proposal for a contract award if it is established that during the selection process the bidder or consultant that is recommended for the award has been convicted of corruption, directly or by means of an agent, or has engaged in fraud or anti-competitive practices in view of being awarded the Contract;
- b) Declare misprocurement when it is established that, at any time, the Contracting Authority, the suppliers, contractors, subcontractors, consultants or subconsultants their representatives have engaged in acts of corruption, fraud or anti-competitive practices during the procurement process or performance of the contract without the Contracting Authority having taken appropriate action in due time satisfactory to AFD to remedy the situation, including by failing to inform AFD at the time they knew of such practices.

AFD defines, for the purposes of this provision, the terms set forth below as follows:

- a) Corruption of a Public Officer means:
 - The act of promising, offering or giving to a Public Officer, directly or indirectly, an undue advantage of any kind for himself or for another Person¹ or entity, for such Public Officer to act or refrain from acting in his official capacity; or
 - The act by which a Public Officer solicits or accepts, directly or indirectly, an undue advantage of any kind for himself or for another Person or entity, for such Public Officer to act or refrain from acting in his official capacity.
- b) A Public Officer shall be construed as meaning:
 - Any person who holds a legislative, executive, administrative or judicial mandate (within the country of the Contracting Authority) regardless of whether that natural Person was nominated or elected, regardless of the permanent or temporary, paid or unpaid nature of the position and regardless of the hierarchical level the natural Person occupies;
 - Any other natural Person who performs a public function, including for a State institution or a State-owned company, or who provides a public service;

¹ Means any Person whether natural or legal, firm, company, corporation, government, state or state agency or any association, or group of two or more of the foregoing (whether or not having separate legal status).

- Any other natural Person defined as a Public Officer by the national laws of the country of the Contracting Authority.
- c) Corruption of a Private Person² means:
- The act of promising, offering or giving to any Private Person, directly or indirectly, an undue advantage of any kind for himself or for another Person or entity, for such Private Person to perform or refrain from performing any act in breach of its legal, contractual or professional obligations; or;
 - The act by which any Private Person solicits or accepts, directly or indirectly, an undue advantage of any kind for himself or for another Person or entity, for such Private Person to perform or refrain from performing any act in breach of its legal, contractual or professional obligations.
- d) Fraud means any dishonest conduct (act or omission), whether or not it constitutes a criminal offence, deliberately intended to deceive others, to intentionally conceal items, to violate or vitiate consent, to circumvent legal or regulatory requirements and/or to violate internal rules in order to obtain illegitimate profit.
- e) Anti-competitive practices mean:
- Any concerted or implied practices which have as their object or effect the prevention, restriction or distortion of competition within a marketplace, especially where they (i) limit access to the marketplace or free exercise of competition by other undertakings, (ii) prevent free, competition-driven price determination by artificially causing price increases or decreases, (iii) restrict or control production, markets, investments or technical progress; or (iv) divide up market shares or sources of supply;
 - Any abuse by one undertaking or a group of undertakings which hold a dominant position on an internal market or on a substantial part of it;
 - Any practice whereby prices are quoted or set unreasonably low, the object of which is to eliminate an undertaking or any of its products from a market or to prevent it from entering the market.

2. Environmental and Social Responsibility

In order to promote sustainable development, AFD seeks to ensure that internationally recognised environmental and social standards are complied with. Suppliers, contractors, subcontractors, consultants or subconsultants for AFD-financed contracts shall consequently undertake in the Statement of Integrity to:

- a) Comply with and ensure that all their subcontractors or subconsultants comply with international environmental and labour standards, consistent with applicable law and regulations in the country of implementation of the contract, including the fundamental conventions of the International Labour Organisation (ILO) and international environmental treaties;
- b) Implement environmental and social risks mitigation measures when specified in the environmental and social management plan (ESMP) provided by the Contracting Authority.

² Means any natural Person other than a Public Officer.

PART 2 – Works Requirements

Section VII – Scope of Works

1. Description of the Works

The Madaba WWTP is located approximately 3 kilometers (km) south from Madaba City center. The original plant was a lagoon-based treatment system built in the 1980s. The plant was expanded and updated, starting in 2000, to an extended aeration-activated sludge treatment system that became fully operational in 2002 (referred to herein as the 2002 Plant Expansion).

The 2002 Plant Expansion upgraded the WWTP to have a biological loading capacity of 7,220 kg/d as BOD5 and hydraulic capacity of 7,600 m³/d secondary treatment configured as a biological nutrient removal (BNR) process to achieve organic matter, nitrogen, and phosphorus removal, with secondary clarifiers (settling tanks). Additionally, new plant inlet headworks and sludge handling systems (thickener and drying beds) were added. The design year for this expansion was 2010, according to the design report.

As of January 2024, the Madaba WWTP is operating at average influent flow of 8,500 cubic meters per day and actual organic load of 1,050 milligrams per Liter (mg/l), as provided by MWI/WAJ and MWC.

Based on data extracted from the recent (late 2018 update) geographical information system (GIS) database provided by MWC, the existing wastewater collection network is approximately 146 km long and serviced an estimated 96,100 people in 2015, based on the Jordan census data.

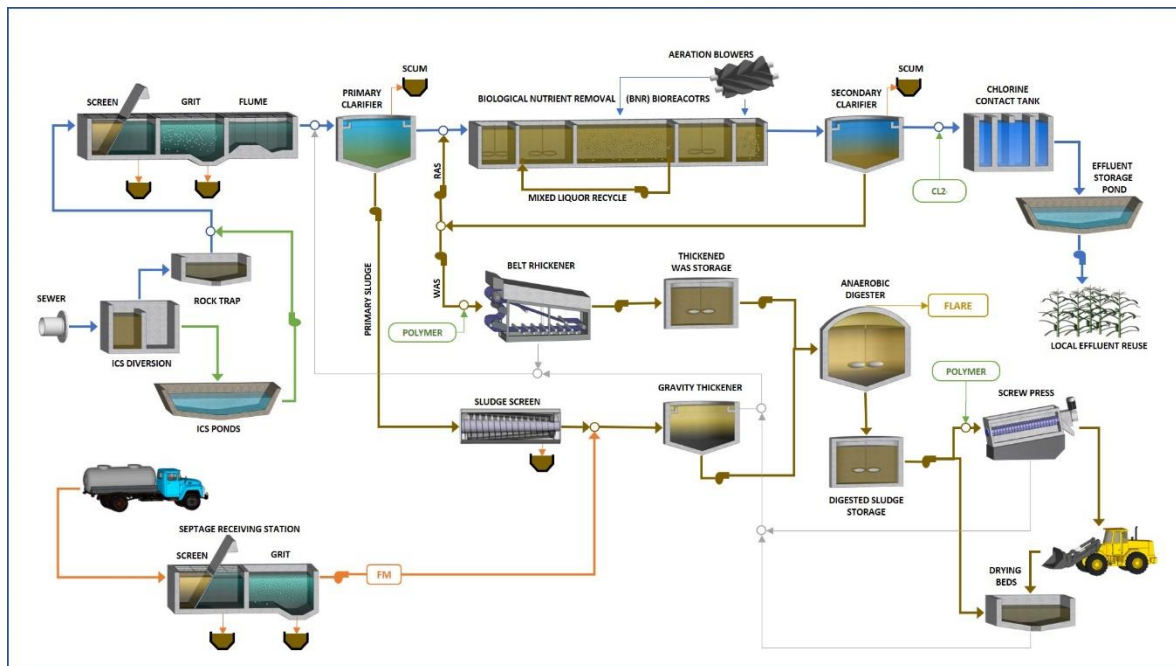

The Madaba WWTP site has an area of 400,000 square meter (m²) occupied by the current facilities. Adjacent to the plant site on the east and south sides, WAJ owns an additional 8,000 m² parcel available for expansion of the WWTP as needed.

The project scope includes the design, supply, delivery, construction, commissioning and operation of the new wastewater treatment at the location of the existing Madaba WWTP site. The specific components of the new WWTP consist of:

1. Head works with flow metering, screens, grit and grease removal, and influent combined sewage management system
2. Trucked septage unloading station
3. Primary clarifiers
4. Biological nutrient removal activated sludge process
5. Secondary clarification.
6. Waste Activated Sludge and Return Activated Sludge (WAS/RAS) conveyance systems
7. Effluent disinfection
8. Primary and WAS Sludge thickening systems
9. Sludge digestion with option to add CHP system in the future.
10. Sludge mechanical dewatering
11. Sludge drying beds
12. Odor control
13. Yard piping
14. Pump Station for local irrigation.
15. Site work including all utilities
16. Power supply and distribution system
17. Administration, maintenance, dewatering, sludge pumping, and chlorination buildings
18. Electrical, Instrument and control systems
19. The contract will also include a 10 years Operation Service Period (O&M) component by a professional WWTP operation contractor.
20. Decommissioning of existing unused structures

The Madaba WWTP expansion is a new 16,000 m³/d (average annual daily flow, which does not include the existing WWTP capacity) facility to be constructed in parallel to the existing WWTP that is to remain operational throughout the construction of the new facilities.

The Madaba Wastewater Treatment Plant (WWTP) expansion project aims to treat wastewater more efficiently and sustainably. As shown in the process diagram below, the biological treatment process begins with primary clarifiers, followed by plug-flow Biological Nutrient Removal (BNR) treatment system, and ends with secondary clarifiers. On the solids side, primary sludge thickening and waste activated sludge thickening are followed by anaerobic digestion for sludge stabilization, and the sludge dewatering and drying. The anaerobic digestion system is designed to include the future installation of a CHP system to utilize the by-product (biogas) produced by the anaerobic digestion process.

2. Design-Build and Operation Services Period(s)

The Contract is expected to be awarded in the second semester of 2024 with site mobilisation to commence soon afterwards. Time for Completion will be 30 months for the design-build period and a 3 year +7-year (optional) Operation Services Period. The operation contract will include sludge disposal, renewal of assets, operation of the onward pumping of treated effluent towards local or remote irrigation area ; the Retention Period will be 12 months. The FIDIC Gold Book will be used for the Conditions of Contract.

3. Site and other Data

The project area falls within the hot summer Mediterranean climate. The mean maximum and minimum temperatures recorded at Madaba indicate mild wet winters and dry hot summers. The relative humidity in Madaba is around 47.9 percent in May and 75.2 percent in January and the annual average precipitation rate is around 329 mm.
