Rehabilitation & Upgrading of Hasa Well Field & Pump Stations

Addendum No. 4

1- Annex 2 - Vol. III Technical Specifications to be considered cancel.

2- Replies to questions and inquires as following:

No.	Questions and inquires	Replies to questions and inquires
1	Agree that the advance payment for the project be 10% of the accepted contract value.	No advance payment
2	Approval of the interim payments provided that they are of an appropriate value that facilitates the contractor's work on the site and is acceptable to you. We suggest that they be of a minimum value of (300,000) JD.	All payments shall be according to the Schedule of Payments included in the Supplementary Particular conditions.
3	Agree that the interim invoices shall be paid within 30 days from the date of acceptance.	There will be no Interim Payment, only Milestone Payments. Payments to Contractor will be after each milestone completion and will be paid after 56 days of each milestone's bill acceptance.
4	With reference to the above project, we contacted local companies and suppliers of pumps and after studying the required specifications and discussing the specifications with factories, it became clear to us that all the submitted offers do not meet the required specifications, so we contacted some factories within the European Union and found out their ability to meet the specifications. Based on the above, we kindly request you to allow the import of pumps from a European origin so that we can offer pumps according to the specifications or reconsider the specifications to suit pump manufacturers in India or the United States of America in addition to the above.	To abide with the technical specifications, knowing that all materials and products must conform to code 937 as specified in the tender documents, except DI pipes and fittings can be conform to code 935.
